

CATECHOLAMINES AND OXALATES IN URINE: INSTRUCTIONS FOR URINE

COLLECTION COLLECTION CONTAINER:

24-hour urine container with added HCl

Available at:

Casatenovo Presidio: Collection Center (Floor 0) from 08:00 to 09:30 or at the Secretariat of the Analysis Laboratory (Floor 1) from 08:00 to 15:30

COLLECTION METHOD:

Discard the first urine of the morning; then start collecting all urine passed in the following 24 hours, including the first urine passed the following morning. During collection, do not expose the container to light or temperatures above 10°C.

RECOMMENDATIONS:

A preparatory diet is required, which consists of not eating meat or its derivatives in the 2 days before the day of the start of the collection and during the entire collection itself.

Delivery times: Collection room, Ground Floor Mon-Fri 08:00-09:30
